

Hammers - Compact Hammers - 32mm Heavy Duty SDS-Plus Combination Hammer

D25404K Features

- Ideal for drilling large anchor, fixing and through holes in concrete and masonry from 6 to 32mm in diameter
- Rotation-stop for light chiselling applications, render and tile removal
- Impact-stop for drilling in wood, ceramic, steel and screwdriving applications
- Large hammer mechanism construction guarantees longer tool life and superior performance
- Outstanding ergonomic D-Handle design with rubber coated handle provides comfortable and secure grip in any application
- Electronic variable speed switch for total control
- Quick Change feature enables rapid change of the SDS-Plus toolholder reducing down time
- Quick Change 3 jawed chuck provides speed, precision and flexibility when drilling in wood, ceramic and steel (available as accessory)
- High power 900W 73mm motor ensuring excellent performance in all drilling applications
- High technology transmission design cuts friction losses delivering smooth quiet operation

Hammers - Midsize Hammers

D25500K Features

- Ideal for drilling anchor fixing and through holes in concrete and masonry from 12 to 40mm in diameter. Core drilling up to 90mm
- Rotation-stop for light demolition applications
- Unique dust sealing protection to prevent even the finest dust ingress into mechanism delivering high durability and extended tool life
- Hammer mechanism optimized to deliver maximum impact energy to beat frequency and efficiently drill into the hardest concrete
- Efficient mechanism delivers impact blows directly to the bit without losses through excessive vibration and rebound dampening reduces stress to the tool
- Excellent power to weight ratio: 9 J of impact energy delivered by a 5kg hammer
- Ergonomic compact slim line design gives control and easy access to tight spaces
- Soft rubber grip handle reduces vibration to the user lowering fatigue during extensive use
- Electronic speed and impact energy control for use with smaller bits or delicate/lighter materials
- Magnesium housing for lower weight and excellent durability

Hammers - Demolition Hammers - Breaker+Trolley

D25980K Features

- Large Oversize Mechanism delivers extreme durability and excellent breaking performance
- 2000 W, 95 mm motor delivers outstanding efficiency and durability
- Optimized motor and hammer mechanism deliver best performance on the market
- Active Vibration Control offers safer, more comfortable use and more productivity
- Suspended Handle System absorbs the rebound and, working with the AVC, delivers the lowest vibration on the market
- Heavy Duty electronic module for constant power under load
- Easy to service design to reduce repairing costs
